A detailed technical line drawing of a complex industrial machine, likely a compressor or pump system. The drawing is composed of two main parts: an upper section showing a multi-stage pump or compressor unit with various internal components like impellers and bearings, and a lower section showing a motor or drive unit connected via a shaft. The entire assembly is shown in a cutaway view, revealing internal mechanical details. Arrows indicate the direction of flow or rotation. Various valves, piping, and structural supports are also depicted.
